Practice Sheet 1:

Due date and Time: Aug 18, 2020 and deadline is 9:40 am.

Problem 1(a):

Try to compile the C++ code given below and **submit the screenshot of output on Google class room**.

1. **#include <iostream>**
2. **using namespace std;**
3. **int main()**
4. **{**
5. **cout << " Every age has a language of its own \n";**
6. **return 0;**
7. **}**

Problem 1(b)

Try to compile the above program without using directive (comment line number 2 of the program).

What are the changes required to compile and execute the program? Submit the modified code and screenshot of the output.

Problem 2:

Write a program in C++ to print output in given format:

I am student of B.Tech (Second Year) in the Department of Computer Engineering

Name   : ABC XYZ

Faculty Number   : 19COBXXX

Enrollment Number : XY1234

Submit the code and screenshot of the output.
